Full-stack Developer

BeaconFire Inc

DESCRIPTION: BeaconFire headquartered in central NJ, specializing in Software Development, Web Development, and Business Intelligence; we are looking for a Full-stack Developer(Node.js/React.js)who is passionate about combining technology and design to create user-friendly software and web applications.

Responsibilities:
· Develops software and web applications using Java 8/J2EE/Java EE (and higher), Node.js, React.js, Angular2+, SQL, and HTML5, among other tools;
· Writes scalable, secure, maintainable code that powers our clients' platforms;
· Creates, deploys, and maintains automated system tests;
· Works with Testers to understand defects opened and resolves them in a timely manner;
· Supports continuous improvement by investigating alternatives and technologies and presenting these for architectural review;
· Collaborates effectively with other team members to accomplish shared user story and sprint goals;
· Invests time in constant professional development to stay up to date with new technological developments and programming languages;
· Discovers and fix programming bugs.

Basic Qualifications:
· Experience in programming language JavaScript or similar (e.g. Java, Python, C, C++, C#, etc.) and understanding of the software development life cycle;
· Proficient understanding of HTML, CSS, JavaScript;
· Basic knowledge of code versioning, e.g. Git, SVN;
· A passion for coding pixel perfect web pages;
· Bachelor's degree or higher in Computer Science or related fields.

Preferred Qualifications:
· Master's Degree in Computer Science or related field;
· 0-1 year of practical experience in JavaScript coding;
· Familiarity with at least one JavaScript framework (Angular2+, React.js, Express.js);
· Experience with unit and integration testing of code, with an understanding of JavaScript testing frameworks like Jasmine, Cucumber, Mocha, and Karma;
· Experience providing REST/SOAP APIs for user interface consumption;
· Experience working within an Agile development methodology Scrum.

Location: Remote to start

Salary: $65,000.00 to $80,000.00 /year
