Extra Credit (Blog)
Spring 2020 CISC 3130
Student: Liyu Lin
Emplid: 23809622

- A brief reflection (unscored portion, works as feedback to let me know whether it was a helpful assignment). Describe an overall objective of what you've set out with the blog, and whether you were able to maintain that vision.

Through this assignment, I know how to build and maintain a blog website by jekyll. I will continue to update my blog weekly even after the end of this semester. This is a study blog where I will post at least one post per week on something I've learned. The following is the information about my blog:

```
url:llyu0966.github.io

baseurl: llyu0966.github.io/myblog

title: A techno-geek's blog

description: "A gem-based responsive techno-geek's blog."
```

- A checklist (so I can verify each post) - List all the blog post(s) you'd like to have considered with their title, datestamp, and url link so I can take a look at each one.
- Include basic statistics such as total number of posts so I can verify my tally with your figures.

Posts #	title	date	url
1	Binary Trees	May 12, 2020	https://llyu0966.github.io/myblog/blog/Binary-Trees/
2	Probabilistic Modeling	May 13, 2020	https://llyu0966.github.io/myblog/blog/Probabilistic-Modeling/
3	Covid-19	May 08, 2020	https://llyu0966.github.io/myblog/blog/Covid-19/
4	A Competitive Hunter Model in R	May 07, 2020	https://llyu0966.github.io/myblog/blog/A-Competitive-Hunter-Model-in-R/
